4-unit apartment buildings okayed

Village trustees have given Murrill "Missouri" Cunningham permission to begin construction of four 4-unit apartment buildings on Anita Street.

The permission is contingent on Mr. Cunningham signing an agreement with village attorney Andrew Lynch, stating that Mr. Cunningham will comply with all village ordinances regarding the construction of the apartments.

THE PROPERTY involved is near the village industrial park and is presently zoned for R-4 (two-family) dwellings.

Mr. Cunningham said he plans to divide the property into four parcels, one on North Avenue and three south of there. He will build one 4-unit apartment dwelling on each parcel of land.

Village officials were initially concerned over the interpretation of part of the R-4 zoning ordinance which concerns property that adjoins or faces a business or manufacturing district.

THEY WERE ALSO concerned that Mr. Cunningham did not have an overall site plan which would deal with water retention and other village building ordinances.

Mr. Cunningham, wanting to begin "phase one" of his construction before winter sets in, said he would sign an agreement with Mr. Lynch to insure his compliance with all village ordinances.

Air rifle ordinance is passed

An ordinance regulating the retail sale and use of air rifles, bows and arrows, and slingshots was passed Monday night by the Antioch village board.

The ordinance was suggested by Police Chief

Chuck Miller who told the mayor it will give us more control than the state ordinance.

Use of the devices in the village is illegal. Also, they

WHEN CHRISTIANS WERE being fed to the lions, back in Caesar's time, is the setting for the next PM&L play, "Androcles and the Lion." Featured performers include Tracy Teltz Kiederlen (left) and Larry Bersie. The play opens in Antioch on Saturday, Dec. 2. (Another picture on the entertainment page.)

Saturday: Santa comes to town!

Make up your list of Christmas wishes and visit with Santa Claus Saturday during his annual visit to Antioch, sponsored by the Chamber of Commerce and Industry.

The jolly old gent will take a spin down Main Street at 12 noon on a big fire truck to announce his return and then spend a few hours at "White's Ice Cream Parlor, 775 Main St., to hear the secret yearnings of all the local youngsters.

From 12:30 to 5:30 p.m. Saturday, while Santa is in residence, elves will be serving hot chocolate and cookies to the little guests at the ice cream parlor.

A CHRISTMAS TREE Lighting Ceremony will be held Monday, Dec. 4, at 6:30 p.m. at the village hall.

Sue Koppa, parks and recreation coordinator, asks people to bring their own ornaments to decorate the tree. Cookies and hot cocoa will be served.

Following the ceremony a movie, "Sinbad," and cartoons will be shown at the Antioch Theater. The movie will begin at 7:00 p.m. and seating will be limited.

Tickets for the movie can be picked up at the Chamber of Commerce and at the parks and recreation offices.

ANTIOCH TRAVEL AGENCY celebrated its 20th anniversary with an open house last Wednesday. Among those visiting the agency's brightly remodeled offices was Lee Trezise, executive secretary of the Antioch

Adults are welcome. No appointment is necessary.

The 55th anniversary of Victory Memorial Hospital in Waukegan will be observed on Thanksgiving Day with a two-hour radio program at 9 a.m. on WKRS, 1220 on the AM dial.

Hospital administrator Donald Wasson and Governing Board president Thomas Rostron, along with physicians and former nurses, will trace the history of Victory Memorial from 1891 to the present.

THE FIRST TO ENTER — Shirley A. Shickel (left) of Rt. 3, Antioch, is the first young woman to enter the 1979 Miss Antioch Pageant. Shirley, whose talent is modern dance, is an employee of the State Bank of Antioch. She is shown being signed up for the pageant by Lee Trezise, executive secretary of the sponsoring Chamber of Commerce and Industry.

Miss Antioch entries sought

Could the girl who is selected Miss Antioch become the next Miss America?

The odds are way against it, of course, but at least it's a start. And a lot of honors await the winner of the Mar. 24 pageant here.

The Chamber of Commerce & Industry will conduct its

first pageant at the Antioch High School auditorium.

APPLICATIONS CAN be obtained at the Chamber office, 880 Main St., any weekday between 9 a.m. and 4 p.m.

To qualify, a young woman must be 17 and a high school graduate, and not older than 26 on Labor Day (Sept. 3, 1979).

She must be an American citizen and must never have been married. She must live, work or go to school in Antioch or boundaries set forth by the committee.

TALENT WILL BE considered in the judging and each contestant should possess some quality of talent, either trained or potential.

"We urge civic and social organizations to refer candidates," said Lee Trezise, executive secretary of the Chamber. "Consider the young women you know personally, relatives or daughters of friends, and encourage the girls to enter the pageant."

Judging of the candidates will be based on the same values as considered at the Miss Illinois Pageant and at the national Miss America Pageant.

Personality, poise, beauty and talent are the major requirements. Each contestant will be judged in private interview, in evening gown, in swimsuit and in talent presentation.

For more information call the Chamber office at 395-3381.

Man killed as car hits trees

An Antioch man was killed and three other persons were injured Sunday night when their car hit a mailbox and three trees on Rte. 59, south of Hillside Ave., near Antioch.

The victim, Edward P. Zbylut, 34, of rural Antioch, was pronounced dead at the scene.

Lake County sheriff's deputy, William Alter, said Zbylut was a passenger in a car driven by Joseph Lehner, 32, also of rural Antioch.

Alter said Zbylut, who was riding in the front seat, was pinned in the car and had to be extricated by the Rescue Squad.

Others hurt were Lehner, his wife, Sharon, 31, and Zbylut's wife, Diane, 31, who were riding in the back seat.

The Lehnerts were admitted to St. Therese hospital in fair condition, while Diane Zbylut was taken to Victory Memorial Hospital where she was listed in stable condition.

The extent of their injuries was not given by the hospitals.

Alter said the two couples were going to a restaurant and were traveling south on Rte. 59 when their car left the road on to the west shoulder, hitting the mailbox and two trees, before slamming into the third tree.

Office Cat - Baxter

At least the "funnies"
are getting better

By JERRY PFARR

Monday night, we picked up the Chicago Herald-Examiner and began reading what the newspaper called "America's Greatest Color Comic Section."

We read "Bringing Up Father," with Jiggs and Maggie, "Toots and Casper," "Barney Google," "The Toonerville Trolley" and "Felix the Cat."

This was a 1925 edition of the Herald-Examiner, a newspaper that no longer exists.

THE COMIC SECTION showed how much more sophisticated our senses of humor have become.

None of the comic strips mentioned above are the least bit funny today. "Extremely corny" describes them better.

Today we have "Peanuts," "Hagar the Horrible," "Shoe," "The Born-Loser" and whatever your favorites are.

The front page of the Herald-Examiner carried a column by Will Rogers, who was trying to be funny. He wasn't.

THE 53-YEAR-OLD issues of the old Chicago newspaper were loaned to us by William Gerber of Park Ave., who found them as many of us occasionally uncover such treasures, in attics or lining the drawers of an old dresser. They're always fascinating to read, such as the headline:

"2,000 Hear Billy Sunday Swat Satan." And the subhead: "Evangelist Rips Into Modernism and Liquor in His Old-Time Style at Moody Church."

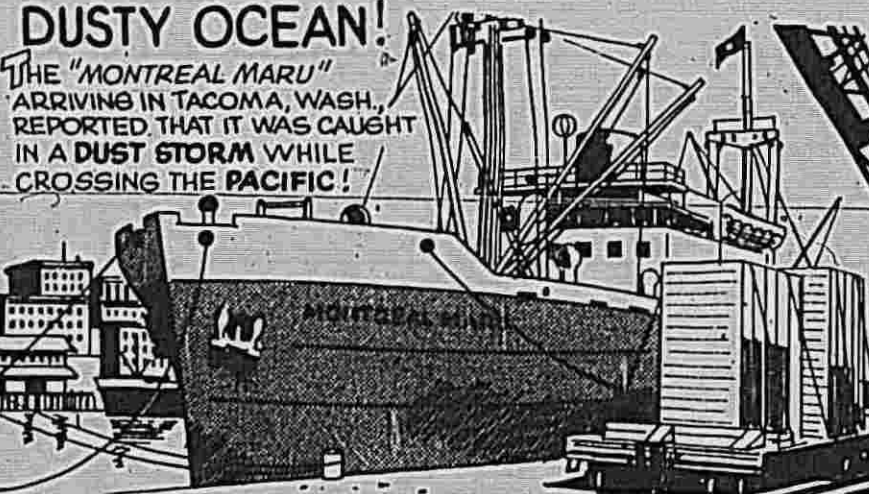

"Demon Rum has been knocked out! He's whipped!" Billy Sunday was quoted as shouting. "Prohibition is here to stay; it's as permanent as the 48 stars of our flag!"

Of course, the flag now has 50 stars and Billy Sunday never did shut down Chicago.

THE SPORTS STORIES were about Red Grange of the Chicago Bears, Knute Rockne of Notre Dame and Bobby

DUSTY OCEAN!

THE "MONTREAL MARU" ARRIVING IN TACOMA, WASH., REPORTED THAT IT WAS CAUGHT IN A DUST STORM WHILE CROSSING THE PACIFIC!

Jones, "the world's greatest golfer."

There also was a story about "the screen's magnetic lover," Ronald Colman, who was making a special request of his film fans that he no longer wishes to be labeled as "supreme lover. I would rather the public judged me by what artistic and dramatic ability I possess."

Today, Bert Reynolds is asking the same thing — but with a more sophisticated sense of humor.

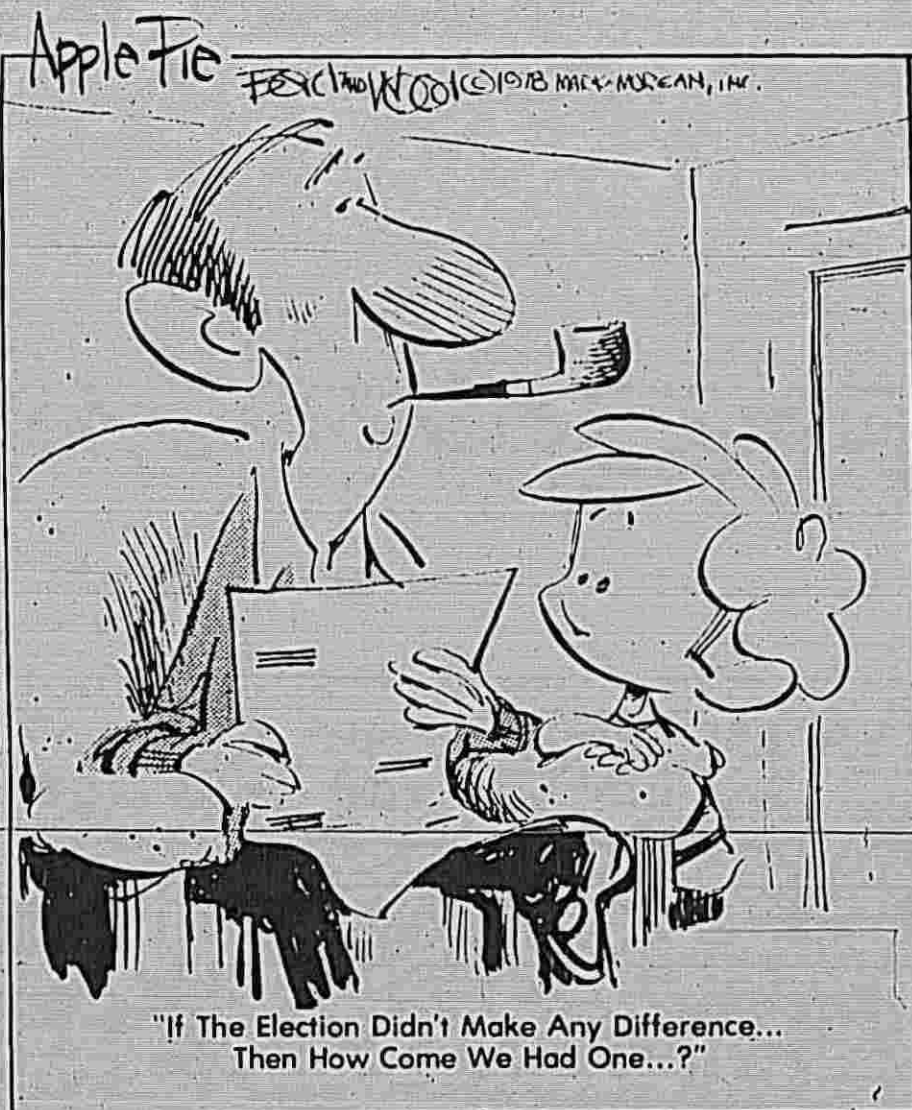

THERE WASN'T a television section in the 1925 Herald-Examiner, but there was, of all things, a radio section.

There weren't any airline advertisements, but there was a 14-inch-long listing of ships sailing to Europe.

There was an article about Warren Brown, sports editor of the Herald-Examiner, heading for California to cover the Rose Bowl game. We read that Monday night.

Tuesday morning we woke up and read in the Chicago Tribune that "Famed sports columnist Warren Brown dies at 84."

And any old-timer will tell you that, sometimes, 53 years seem to go by that fast.

ANTIOCH VILLAGE OFFICIALS, (from left) Joe Huber, Walt Shepard and Tod Maplethorpe, are installing lift stations which pump sewage to the village treatment plant. By using village employees and equipment, the project is saving Antioch considerable money. Above, they lower a sledge pump into a new lift station on Fillweber Court. The station was completed during the last week of October. It will service the apartment buildings and some single family homes on Fillweber Court. (Paul Maplethorpe photo.)

Sewage 'lift stations' save village money

The Antioch village Department of Public Works is installing three new lift stations.

A lift station is a structure installed in a low area to pump sewage up a hill to a point where it can be run by gravity to the village treatment plant.

One of the lift stations, on Fillweber Court, has been completed, with the exception of electrical controls.

This was the most complicated of the three stations and took a full week to install.

Two other lift stations, one on Timber Lane and the other on Bridgewood Drive (both in Oakwood Knolls), will be installed sometime during the winter.

Walt Shepard, superintendent of public works, said by utilizing village employees and equipment (and that hiring outside contractors) the village is "saving a significant amount of money."

"Because of the money we're saving, we are able to do all three lift stations, instead of one," Shepard said.

PUBLIC INVITED

TM lecture here Nov. 28

Jim Polley of Antioch will present an "Introduction to the Transcendental Meditation Program" on Tuesday, Nov. 28.

The free public lecture will begin at 7:30 p.m. at the Antioch Township Library on Main St.

"The TM program requires no change in lifestyle and is not a religion or philosophy," said Polley. "It has, therefore, been found to be applicable to many aspects of individual and social development."

"The TM technique, when practiced for 15-20 minutes each morning and evening, brings greater energy, mental clarity, and thus more harmonious social interaction. A growing body of more than 300 scientific studies at 200 research institutions (such as Harvard Medical School, Stanford Research Institute and UCLA) indicates a wide range of benefits produced by the TM technique."

Polley, an Antioch resident, will present the "Preparatory Lecture," the second lecture in the 7-step TM program on Thursday, Nov. 30. This lecture also will begin at 7:30 at the Antioch library.

Polley is inviting all people who have already attended an "Introductory Lecture."

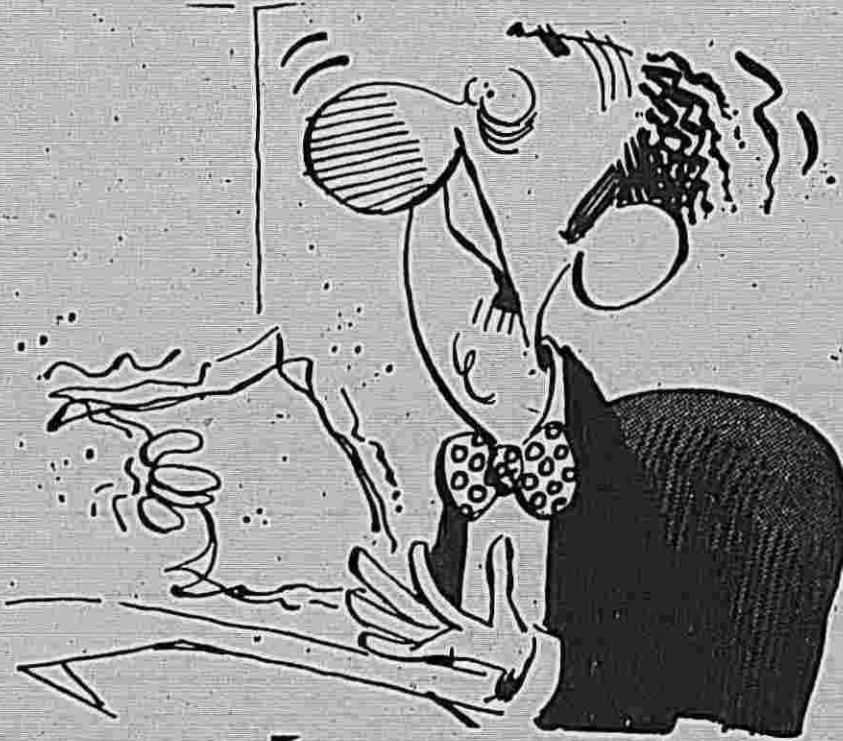

"Both lectures are free and will conclude with question-answer sessions," he said.

All about town ...

By LINDA WALKER

It's beginning to look a lot like Christmas, especially in Antioch.

The village crew put up the street decorations this week, and Lee Trezise, executive secretary of the Chamber of Commerce, told me that the arrival of Santa Claus on Saturday will begin the holiday festivities.

The most recent Gallop poll claims that 40 percent of the American public has completed its Christmas shopping. Glad to know I'm still part of the majority.

I enjoy shopping the last three days before Dec. 25. There's something about total mass confusion that's good for your physical and mental well-being.

THE BEAUTY STOP (950 Main Street) is operating at full capacity again. Doris Muedini has returned from her 6-week vacation in Europe with lots of exciting tales. Even her touch of home sickness couldn't mar the scenic beauty.

Sharon, Doris' sister and partner, is certainly glad to have her home. Operating the beauty shop minus one stylist is difficult and challenging. But the job was done and done well.

ALMOST EVERY MALE must be up in northern Wisconsin for the opening of deer season. However, Chuck Cermak isn't one of them. He claims it's like a war up there, and you won't catch him there.

Chuck already brought home the big kill after his hunting trip out to Wyoming. That's what I call a good sport.

VICKY MAY, who is 8½ years old, fell and hurt her head last week.

Unfortunately, I didn't write a column last week, and Vicky looked through the paper searching for her name. We don't want to disappoint her, so here goes ...

Glad to know you're feeling much better, Vicky.

PAT SERSHON of Main Secretarial, has expanded the hours of her office to 8:30 to 4:30.

Also, Pat has designed and made most of the costumes for PM&L's newest show, ANDROCLES AND THE LION, being produced in December.

Watch for a birthday announcement soon. Main Secretarial will be two years old on Jan. 1, and Pat is planning a party to celebrate "the terrible two's."

Happy Thanksgiving, everyone!

License plate sales begin at bank Dec. 1

The State Bank of Antioch, one of the participants in the new multi-year passenger license and staggered registration program, will sell only short option plates, Secretary of State Alan J. Dixon announced.

Over-the-counter sales at the State Bank begin Friday, Dec. 1, the same day it is legal to display 1979 plates.

Expiration dates for short option registrations will be staggered in September, October and November of 1979. An extended option is also available for applicants sending their renewal forms to Springfield.

"There is no cost difference for the two registrations," Dixon said. "They are prorated on a monthly fee of \$1.50 for vehicles with 35 and less horsepower and \$2.50 for vehicles over 35 horsepower."

An important change is that the Antioch bank will require either a 1979 license pre-print renewal form or a 1978 vehicle identification card.

ENGAGED

Mr. and Mrs. William Mendra have announced the engagement of their daughter, Karen, to Mr. David Yeiser of Arlington Heights.

David is a Theology student at Trinity in Deerfield, Ill.

The couple is planning a December wedding.

REFLECTIONS ...

By LINDA BARNES

When a Bushman of the Kalahari Desert was asked what was the worst, most punishable offense someone in their band could commit, he responded — to be quarrelsome.

An African Bushman will go to any lengths to avoid a fight or to avoid making other Bushmen jealous.

For this reason, the few possessions Bushmen have are constantly circling among the members of their groups. Their culture insists that they share food, water and the few possessions they have with one another. Theft amongst the Bushmen is practically unheard of.

AS THESE FACTS suggest harmony, co-operation, and sharing are vital parts of these "primitive" people's lives. Though they are essentially possession-less and technology-less, theirs is a remarkably rich and, in many ways, exemplary culture.

From it we can learn and apply much, even in the context of our modern, industrialized lives.

The Bushmen are one of the oldest forms of human life

left on the earth. They are descendants from the later Stone Age, and evidence suggests their origins go back as far as 8,000 to 10,000 years.

THOSE BUSHMEN STILL living in a "wild" state in the Kalahari have retained essentially the same way of life as their earliest ancestors. They therefore can be called, in a very concrete sense, our living links with our human origins.

There are clear indications that at one time the Bushmen lived in many regions all over the continent of Africa, the Mediterranean area and perhaps southeast Asia.

TODAY, HOWEVER, the Bushmen live principally in the dry, barren Kalahari Desert (in Botswana and Namibia, in southern Africa) where they have been driven by the incursion of the white man from the south and the black men from the north and east.

Physically and linguistically, the Bushmen bear little resemblance to any other type of people in Africa (except the Hottentots, which they closely resemble).

They have yellow-copperish skin, slanted, Asian-looking eyes, and tightly-curved hair which arranges itself in separated peppercorn tufts. They are extremely short in height.

There is one theory which suggests that forebearers of

the Bushmen migrated across Asia and into Europe, somehow crossing the Mediterranean to then populate Africa.

THE BUSHMAN'S LANGUAGE is highly unusual. It consists of a series of clicks, pops and cracks and is onomatopoeic — that is, the sounds of the language are directly related to the meaning.

The Bushmen are nomadic. They wander through the desert, in small bands, in search of food and water, making simple camps, constructing simple lean-tos for housing — or having no housing at all.

They are hunter-gatherers. Men, hunting in groups, use extremely simple poison arrows and traps. Women use digging sticks to gather roots, tubers, fruits and melons from beneath the desert sand.

MUCH OF THEIR TIME is spent in search of water which, of course is scarce in the desert, especially during the dry season. The Bushmen have an uncanny way of finding water beneath the desert sand. They use reeds to suck water from beneath the sandy surface, intuitively sensing, it seems, where the water can be found.

Much of the Bushman life is based upon intuition. They have been known to sense people approaching in the vast desert, long before anyone was physically in sight.

When asked how they knew someone was approaching, the Bushmen answer that they felt it with a "tapping in their chests."

The Bushmen possess an extraordinary, almost mystical relationship with their natural environment. It is a relationship of intimacy, deep understanding and respect towards sun, moon, stars, clouds, earth and all plants and animals, upon which they are completely dependent for all of the necessities of life.

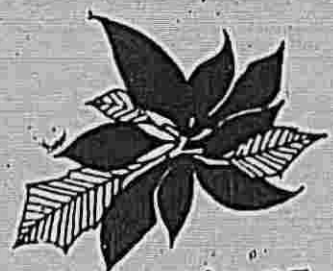

Courage, heroism and the value of the individual are still essential aspects of their lives. It is a life which never lacks in meaning.

MUSIC AND DANCE are so intrinsic to the Bushmen's existence that frequently they will break into spontaneous song and dance to express an emotion or sentiment of the moment.

Formerly, they were imaginative artists, and their rock paintings have, in some instances, survived over 10,000 years.

Much of the Bushman spirit can be grasped and understood through their imaginative, elaborate and often symbolic stories and mythology.

And it is, in fact, our becoming acquainted with the mythology, and therefore spirit, of the Bushmen that will hopefully bring us closer to our earliest descendants of man — and in the process help in our understanding of ourselves.

Cocaine: a review

[Editor's Note: This column by pharmacist Don Mendrala of Antioch Drugs is intended to be informative only and is not to be construed as medical advice.]

By Don Mendrala

Cocaine is primarily obtained from the leaves of Erythroxylon Coca. The dried material of the plant contains approximately 0.5 to 1% cocaine. The bush is found in Bolivia and Peru where its leaves have been chewed for 1200 years.

During the 10th to 12th centuries the Andean Indians used cocaine as a local anesthetic in trephining operations. (Trephining was a surgical procedure in which holes are scraped in the skull in order to treat a variety of diseases, including headache and mental disorder.)

The coca leaves were chewed by the surgeon or his assistant and the saliva was then expectorated on the patient's skull throughout the operation to provide local anesthesia.

In 1886 pharmacist John Pemberton compounded a beverage containing coca leaves which he named French Wine Coca. He later removed the wine from his formula and added extra of Koca-nut, a substance rich in caffeine and renamed the product Coca Cola. Apparently unaware of his products potential he sold the trademark and the formula to what is now the Coca Cola Corp. However, in 1906 the Pure Food & Drug Act was implemented which mandated the removal of cocaine from the beverage. Currently the Coca Cola Company extracts the cocaine from the imported leaves and turns it over to the government for medical use while using the decocained leaves as a flavoring agent.

Cocaine is the only naturally occurring local anesthetic and it is absorbed from all mucus membranes.

Cocaine exerts its local anesthetic effect by a direct action on the nerve cell membrane preventing both the generation and conduction of the nerve impulse.

Cocaine initially stimulates the brain centers, this is followed by a depression of the brain centers. Cocaine appears to share many of the effects on the brain as amphetamines which may include restlessness, excitement, euphoria, decreased fatigue, agitation, apprehension, dizziness and headache.

One gram of cocaine can sell for \$50 to \$100 on the street. Cocaine is generally sniffed and is absorbed through the mucus membranes of the nose.

Sniffing or snorting consists of measuring out a dose or a "line" (100-200 mg) and using a short straw, rolled bill or coke spoon and inhaling the powder through the nose and throat. This may be repeated every 15-20 minutes to maintain a high.

With intoxicating doses, the user will appear to have a euphoric feeling & be energetic. Pupils may be dilated, the heart rate and blood pressure and respiration are elevated. Tremors may occur. The euphoric sensations are short lived. These may be replaced by feelings of anxiety and depression. Death can occur from acute toxicity (or overdose).

Simple possession of cocaine is punishable by a prison sentence of up to 1 year and a fine up to \$5000 or both.

Thanksgiving has always been the same

By LINDA BARNES

Thanksgiving, a day set aside to commemorate the pilgrims' celebration of a fruitful first harvest in the New World, has long been an important tradition.

The day's festivities and message of thanks have not changed much through the years ... a feast of turkey, vegetables and pies ... and for many, prayer.

Lately, football games also have become an integral part of the day.

ANTIOCH HAS BEEN NO exception to this national tradition.

Way back in 1926, the Antioch Theater held a "Thanksgiving Day Special" — a production of "Pals First" starring Lloyd Hughes and Dolores Del Rio.

That year, the Antioch Fruit and Produce Co., at North Ave. and Main St., ran an ad in the Antioch News which said "Just received: A truckload of all kinds of fresh fruits and vegetables for Thanksgiving — cranberries 10 cents per quart, mixed nuts 29 cents per pound, fresh spinach 29 cents for two pounds.

MAIN GARAGE in Antioch ran a 1926 "Thanksgiving Greeting" which said "Have you a heater to be thankful for? If not, we can supply you."

And J. Wilson McGee, manager of the Chicago Footwear Co., of Antioch, printed in the News a poem titled "Your Thanksgiving Day."

A hearty wish for you is here,
For Bountiful Thanksgiving cheer;
A harvest of the brightest things
This mellow season ever brings!

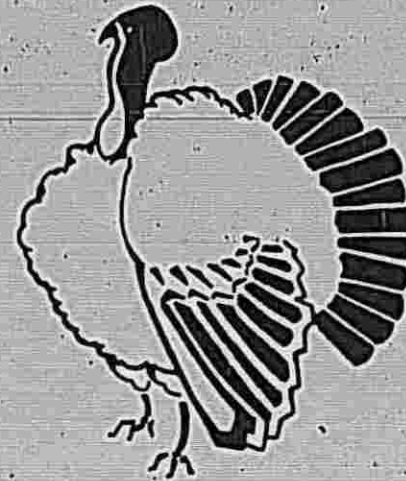

Though years may come and years may go

There is one blessed thing we know
Seed and harvest will not fail
God's love and care shall still prevail.

In 1929, the year of the stock market

crash, there was not much mention of Thanksgiving or Thanksgiving sales in the Antioch News.

But there is an announcement of a

Thanksgiving party and barn dance at Paschendale Farm.

THANKSGIVING IN pre-World War II America was a "divided states" affair.

In 1939, President Roosevelt declared that 22 states would celebrate Thanksgiving on Nov. 23, while 24 states would celebrate the holiday on Nov. 30. Texas was to have two Thanksgivings and Mississippi was undecided.

Antioch in 1939 seemed to be full of Thanksgiving activity.

The A&P store advertised "pre-holiday food values" with fancy pumpkin at 22 cents per can, cranberry sauce at 25 cents per can and pumpkin pie spice at 9 cents.

Pollock's Greenhouses, 325 North Ave., advertised flowers for the holiday with the slogan, "Mums the Word for Thanksgiving."

Jim's Place in Grass Lake held a "Turkey Shoot" where participants would compete for their Thanksgiving day turkey.

The Woodcrest Improvement Association sponsored a Harvest Festival at Landrock's in Channel Lake.

And the Young Ladies' Sodality gave a Thanksgiving eve party at St. Peter's hall.

Etiquette experts say it is acceptable to tip a soup or dessert dish if the plate is tipped away from the eater, not toward him.

Sequoits play in tough tourney

Antioch High School's football team started the season by playing some of the toughest opponents around — and maybe it helped them become winners as the campaign progressed.

The school's basketball team is starting the same way when it plays its first game tonight (Wednesday) in the annual Barrington Turkey Classic.

At 8:30 tonight the Sequoits will play Barrington's Broncos, who are rated among Chicagoland's top 25 prep basketball teams by the Chicago Tribune.

THE BRONCOS WERE in the state's final 16 last year and the final 8 the year before.

Their top players on offense are 6-7 Isaac Person and 6-5 John Tomlinson. The team also has a returning regular at guard, 6-1 Ron Cacioppo, and an up-and-coming center in 6-6 Mark Tomlinson.

After Barrington, Coach Roger Andrews' Sequoits will return to the Turkey Classic to play Elgin Larkin at 6:30 p.m. Friday and then Libertyville at 6:30 p.m. Saturday.

The Sequoits were 16-0 in the Northwest Suburban Conference last winter but gone are starters Bill Dubek, who averaged 22 points a game, and Tracy Sodman, John Eder, Tim Huebner and Brian Andrews, the coach's son and probably the team's most poised player.

Coach Andrews realizes that Grant's Bulldogs deserve to be this year's conference favorite:

"THEY HAVE ALL five starters back and weren't that bad last year," he said. "From there on, it's up for grabs. As defending champions we aren't going to concede anything to anybody."

"Warren, Stevenson and Wauconda are contenders," Andrews said. "Warren because it has 6-6 Dave Kolar back."

Antioch has two returning lettermen — Roger Korjenek, a 6-3 forward, and Dave Gutowski, a 5-10 guard — and several other seniors who were on the varsity last season

but didn't see much action.

"They're good basketball players," Andrews said. "They weren't that bad as juniors; they just happened to be behind a real good senior group. And they did scrimmage all season against that senior group."

"WE LACK game experience," Andrews added, "but we feel we'll be quicker and faster this year and that may help us defensively."

"We will try to do more running and pressing this year and we should have more balanced scoring."

Last season, Eder and Brian Andrews were the only Sequoits who went to the basket hard.

"This year we have four players who can do that," the coach said. "We should do a little more foul shooting. I think this is going to be a little scrappier Antioch team and that may make up for the lack of game experience. In time they'll get that game experience and then we should be pretty tough."

"WE HAVE real good competition for the starting jobs," Andrews said. He indicated that seniors such as Korjenek, Gutowski, 6-1 Scott Gallagher, 6-4 Pete Ploss, 6-3 Rob Nauman and 6-4 Chris Oddsen are "just a little ahead of the juniors" who have joined the varsity.

"We're not super big," the coach said, "but we can put a lineup on the floor with players who are 6-1, 6-3 and 6-4."

Antioch went all the way to the sectional finals last season before losing to Rockford East, which wound up fourth in the state.

The Sequoits may not go that far this time, or win the conference championship again, but Andrews has one of the best coaching records in Lake County and seems pleased with the talent presently available to him.

That tells the other coaches something.

The varsity roster:

LETTERMEN — Roger Korjenek, f, 6-3, senior; Dave Gutowski, g, 5-10, senior.

NON-LETTERMEN — Scott Gallagher, f-g, 6-1, senior; Pete Ploss, c, 6-4, senior; Rob Nauman, f-c, 6-3, senior; Chris Oddsen, c, 6-4, senior; Roger Plechaty, g, 5-9, senior; Bill Ranker, c, 6-0, senior; Pat Sikorski, g-f, 6-1, senior; Ted Poulos, g, 5-11, senior; Mike Anderson, g, 5-8, junior; Chris Kempinski, g-f, 5-11, junior; Jim Sertic, g, 5-10, junior; Ron Nauman, c, 6-6, junior; Mike Pramshafer, g-f, 6-0, junior; Kurt Selak, f, 6-1, junior.

MORE THAN 200 CHEERLEADERS from Northwest Suburban Conference schools attended their 5th annual clinic last Saturday at the Antioch High School gymnasium.

Eight schools participated in a "spirit cheer contest" and the Antioch Pom-Pon girls entertained with their latest routine.

Wilmot begins ski season

Wilmot ski mountain opens Thanksgiving Day, weather permitting. This will be the start of Wilmot Mt.'s 40th ski season.

The main slope in front of the lodge, known as "the face," has been built up 75 vertical feet and reshaped, which makes this slope the highest elevation in the entire area. The two original 1938-vintage rope tows have been replaced by a four-seater chairlift with an uphill capacity of 2,400 skiers per hour. The new run has been renamed "Exhibition," and contains challenging runs for intermediate and expert skiers. "With the increased uphill capacity of the new 'quad' lift, waiting lines will be decreased, especially on weekends," reports Helmut Teichner, Director of the Wilmot Mt. Ski School.

Wilmot now operates a total of eight chairlifts: one "quad," three "triple," and four "double." Two of the doubles each has an uphill capacity of 2,000 skiers per hour and the other two can handle 1,200 per hour. The three triple chairlifts can carry 1,800 skiers per hour. Six rope tows further increase Wilmot's uphill capacity by 5,000 skiers per hour. "In actual figures," Teichner states, "Wilmot can top Aspen in terms of total skiers transported uphill per hour."

Wilmot has been nationally recognized for its advanced technical knowledge in the art of "snowmaking." The most up-to-date type of snow guns will again produce the famous "Wilmot snow" this ski season. Wilmot's slope crews operate nine snowcats.

Limerick leads new cage loop

The Limerick Lounge remained the only undefeated team in the new Antioch Men's Basketball League last Thursday.

The Limerick boosted to record to 5-0 with a 42-21 victory over Century 21, which also entered the game with four straight wins.

Mike Tylkowski and Mike Perrone each scored 12 points for the Limerick and Tylkowski was credited with blocking seven shots.

Steve Owens had 10 points for Century 21.

MAESTRAZI BROTHERS held on to third place, making its record 3-2 with a 64-56 triumph over BJ's Sports Center.

Dick Grant paced Maestrazi's with 23 points while three former Antioch High School players led BJ's. Rick Sedar and Tim Huebner had 17 points each while John Eder scored 16.

The State Bank enjoyed its first win of the season, 46-39 over The Wharf. Jeff Dresser led the Bankers with 12 points while Don Norwick and Steve Pilcher each caged 11 for The Wharf.

The league plays on Thursday nights at Antioch High School's south gym.

Tennis team was 2nd, 3rd in tournaments

The Antioch High School girls tennis team has finished its fall season with a record of 6 wins and 7 losses.

Among the team accomplishments was a third place finish in conference standings, a second place finish in the Cary-Grove tournament, and a third place finish in the conference tournament.

Outstanding individual accomplishments included Janet McMurray's 20-7 record and second place finish at the Cary-Grove tournament, second place finish at the district tournament, and a second place finish at the conference tournament.

Jenny Behne had a second place finish at the conference tournament, and a first place finish at the Cary-Grove tournament and Kathy Sterbenz, third place finish at the Cary-Grove tournament.

Other members of the varsity team were Linda Hoffeditz, Darlene Olsen, Margie Allen, Tracy Witt, Amy Lewandowski, Barb Lombardo, Cathy Anderson and Donna Warner.

The sophomore team wound up league competition with a 6-0 record.

SPORTS IN SHORT

For the third year in a row the Antioch High School golf teams went undefeated in conference match play.

Bob Sertic was voted most valuable golfer with a 38.8 average. He qualified for the sectional meet in Rockford and also took 3rd place in the conference meet.

Tim Haviland took 5th in the conference meet and was voted team captain.

A junior, Dave Behne, was voted most improved and placed 9th in the conference with Bill Witek (a sophomore) placing 10th and freshman Mark Herrold placing 13th.

Both sophomore and varsity records were 13-3 for the season and 7-0 in conference.

THE 1978 cross-country season turned out to be successful for both the boys and the girls teams.

The boys finished the dual meet season with a record of 8-3. They finished third in conference and, for the second time in history, the varsity qualified to run in the sectional meet by placing fifth in the district.

Jim Eller, Dave Unrien, Bob Otten and Gary Miller took home trophies or medals in several meets during the season.

This year the girls cross-country team had a dual meet record of 7-0.

Jim Eller was elected captain of the boys team and Carrie Corso captain of the girls team. Unrien and Miss Corso won "most valuable" honors.

Girls winning awards and winning the conference championship were Miss Corso, Gail Plechaty, Diane Otten, Martha McClure and Nancy Harland. All five will be back next year.

Happenings

ANTIOCH High School will be the site of an Illinois High School Association state district girls' volleyball tournament.

The district meet will be held on Wednesday and Thursday, Nov. 29 and 30, in the south gym.

Antioch will host Woodstock, McHenry and Grant.

There will be two matches on Wednesday, at 6:30 p.m. and 8 p.m. with the winners meeting at 7:30 p.m. on Thursday.

The winner of the Antioch district will advance to the McHenry sectional the following week.

Oakwood Knolls' leader objects to flooding blame

Joseph Veith, president of the Oakwood Knolls Association, talked to village trustees Monday night regarding a problem which he said was beginning to cause dissatisfaction among the subdivision's residents.

Veith said that he and "90 percent of the people in Oakwood Knolls" feel their subdivision has repeatedly been unjustly blamed for causing flooding problems in town.

"People in Oakwood Knolls are getting tired of everytime you read the papers, the flooding is caused by Oakwood Knolls," Veith said.

IN OTHER ACTION at the meeting, Michael Schueneman and Michael Gantar were appointed to the village planning commission. Their appointments will expire in 1981.

Sue Glenn was appointed to the park commission. Her appointment will expire in 1980.

AUTHORIZATION WAS granted for the mayor and clerk to sign an agreement to supply water to the Oakwood Knolls - Wisconsin Water Cooperative.

Authorization was also granted for the

mayor and clerk to sign an agreement with Antioch township for cooperation in a park and recreation program.

Trustee Don Amundsen said the program will call for a sharing of the cost in the maintenance of facilities and programs between the village and township. It also calls for the sharing of representation of the village and township in park programs.

A ONE-DAY LIQUOR license for the Salem township Rescue Squad Auxiliary, for Jan. 20, was approved at the meeting. The \$75 fee for the license was waived.

Approval was granted for the payment in the amount of \$1,590 to Antioch Excavating Inc. for a storm sewer system installed along Hillside Ave., near Poe and Poe, Inc.

Trustees also authorized Donahue and Associates to apply to the Illinois Environmental Protection Agency for a grant amendment, at an additional cost of \$16,185, for an assessment of the county sewer system.

The fire chief, Tod Mapletorpe, has been given permission to have the village's 1968 fire truck reconditioned by Peter Pirsch Co. of Kenosha at a cost of between \$8,000 to \$10,000.

Following the readings, time has been set aside for Christian Scientists to share their gratitude for God's goodness and love.

Mr. Morray Conzelman and Mrs. Barbara Beese, who are serving a term as the congregation's Readers, will conduct the service which also includes the President's Thanksgiving Proclamation. Care will be provided for young children.
